

Shotcrete

MBT SHOTPATCH® 21

Description

Shotpatch® 21 is prepackaged, silicafume-enhanced mortar containing an integral corrosion inhibitor. It exhibits high bond strengths, low permeability, and excellent resistance to freeze/thaw cycling and salt scaling. Its unique technology permits application by wet or dry shotcrete processes.

Packaging

55 lb (25 kg) multi-wall bags
3,300 lb (1,500 kg) bulk bags

Features/Benefits:

- Versatile; designed for dry or wet shotcrete processes
- One component
- Requires only the addition of potable water; reduces handling
- Low permeability
- Resists water and chloride-ion penetration
- Contains an integral corrosion inhibitor
- Prevents corrosion from a wide range of sources
- Cohesive
- High build and reduced rebound
- Workable
- Easy to cut and finish
- Prepackaged quality
- Bag-to-bag uniformity

MBT SHOTPATCH® 21F

Description

Shotpatch® 21F is a one-component prepackaged, fiber-reinforced repair mortar that contains an integral corrosion inhibitor. It exhibits high bond strengths, low permeability, and excellent resistance to freeze/thaw cycling and salt scaling. Shotpatch® 21F can be applied by either the wet or dry shotcrete process.

Packaging

55 lb (25 kg) multi-wall bags
3,300 lb (1,500 kg) bulk bags

Features/Benefits:

- Fiber reinforced for plastic shrinkage control and reduced rebound
- Versatile
- Designed for use with the dry or wet shotcrete process
- Low permeability
- Resists water and chloride ion penetration
- Contains an integral corrosion inhibitor
- Prevents corrosion from a wide range of sources and environments
- Workable
- Easy to cut and finish
- Prepackaged quality
- Bag-to-bag uniformity
