## CONSTRUCTION SPRAYERS

### The Superior Consumer Line of Sprayers Rivaling Commercial Sprayers

Chapin has been a world leader in compressed air sprayers since they patented the first U.S. pump sprayer in 1902. Their world-class company includes manufacturing progressive technology and design methods enabling Carter-Waters to provide our customers the best sprayers and applicators for your needs.

Chapin's 1949 & 1999 models are ideal for construction projects. These applicators are the highest quality applicators available in the industry. Chapin's 31030 model is specially designed for the landscaping professional.

These products are extremely durable and easy to fill and clean as needed. In addition, the Chapin line has designed each unit to be the most effective sprayer on the market.

Chapin's handheld sprayers are ideal for more focused areas. These products are able to cover large areas if required and more intricate areas if desired.

Chapin offers a wide range of repair kits and parts to support their quality line of sprayers. This is to better help support the product to ensure you receive the best results and continuous productivity from the products.
